Virabhadrachari, V. .. *See* Krishnamoorthy and Virabhadrachari.

Wellershaus, S. .. *See* Qasim and others.

TITLE INDEX

Abbreviata Travassos, 1920, genus, on two new nematodes of the, along with a redescription of third, *Abbreviata achari* (Mirza, 1935) (Soota and Chaturvedi), 269.

Allanite from apatite veins near Kasipatnam, Visakhapatnam District, Andhra Pradesh (Rao and others), 15.

Calc-silicate rocks and charnockites from Kasimkota area, Visakhapatnam District, A.P. (Sastry and Murty), 213.

Capparis decidua Pax, shoot apical organisation and development of leaf and axillary bud in (Trivedi), 241.

Cephalochordates of Madras coast, V, studies on (Azariah), 259.

Cercaria andhraensis n.sp. (Trematoda: Echinostomatidae) from the apple snail *Pila globosa* Swainson of Waltair, some observations on the structure and life-history of (Ganapati and Rao), 277.

Cochin backwater (a tropical estuary), tidal cycle and the environmental features of (Qasim and Gopinathan), 336.

Copepods from Waltair coast, some new interstitial (Rao and Ganapati), 1.

Diogenes bicristimanus, hermit crab, neurosecretion in the central nervous system of the (Nagabhushanam and Sarojini), 20.

Diplodiscus chauhani n.sp. from the common Indian frog, *Rana cyanophlyctis* Schneider, a new trematode (Pandey), 203.

"Drumsticks" in the lenkocytes of peripheral blood in clinically normal males at different age groups 0–60 years (Anguli and others), 42.

Estuary, tropical, organic production in (Qasim and others), 51.

Etroplus maculatus (Teleostei), in the gills of, carbonic anhydrase activity, as a function of salinity acclimation (Krishnamoorthy and Virabhadrachari), 235.

Fishes, freshwater air-breathing, four species of, differential blood cell counts of (Khan and Qayyum), 29.

Floral colours and their origins (Raman), 185.

Fungi of Jammu and Kashmir, note on, II (Pandotra and Sastry), 207.

Granophyre dykes from Hunsur Area, Mysore District. Mysore State (Tadkod and Sadashivaiah), 309.

Kitazen, the fungicide, and the mycoflora of rice (Sullia), 295.

Leaves, isolated, auxin-induced biochemical changes, I (Misra and Jema), 36.

Myxomycetes of India, XXIII (Thind and Khara), 284.

Parasitism, study of physiology of applications of plant tissue and cell culture in the (Ramesh Maheshwari), 152.

Pathogenesis, enzymes in (Subramanian), 133.

Pathogenesis, respiration under (Swamy), 142.

Physiology and plant pathology (Sadasivan), 95.

Physiology of virus-infected plants (Ramakrishnan and others), 104.

Physiology of disease resistance in sugarcane with particular reference to red rot (Srinivasan), 120.

Plant bacterial diseases, stress physiology in (Nayudu), 146.

Plant pathology, tracer techniques in (Suryanarayanan), 173.

Plant pathogens, immunoserology in the sudy of (Kalyanasundaram), 181.

Polystichum, the prothallus of (Nayar and others), 198.

Rotifers, brachionid, from Kerala, a collection of (Nayar and Nair), 223.

Selenopidae and Platoridae from India, studies of some rare spiders of the families (Tikader), 252.

Silkworm, univoltine, evolution of new races of, by physiological genetics (Narayanan and Tikoo), 320.

Sonerila, Roxb. (Melastomataceæ) from South India, a new species of (Nayar), 256.

Trace metals in plant diseases (Apparao), 115.
